

**Title:** ABAS-3 Desktop Software Update

**Description:** How to update your ABAS-3 desktop software to version 1.011.

---

### Instructions

1. You will receive an ABAS-3 Software Update email from WPS support
2. Make sure the ABAS-3 program is completely closed
3. Proceed to the web link provided in the email

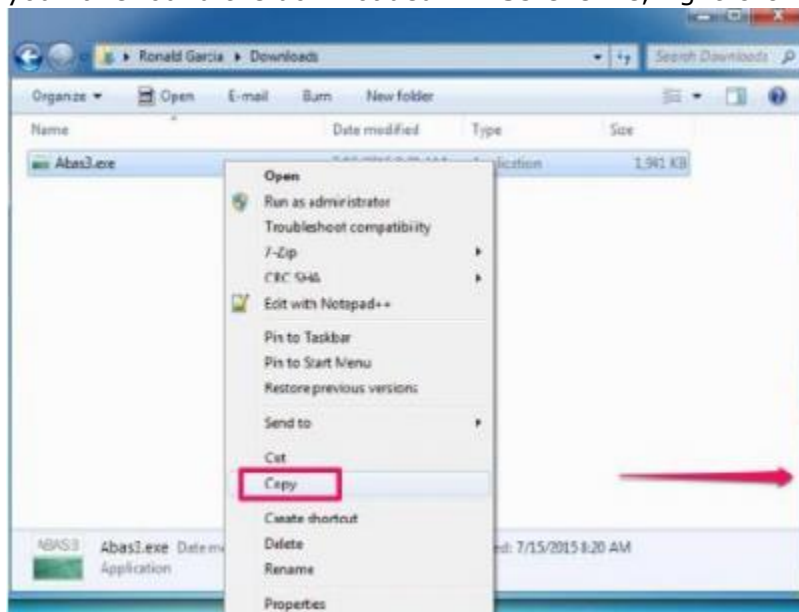

URL: <https://file.ac/JT-8V2Pb1fc/>

Password: 37JuPm&gKyt9

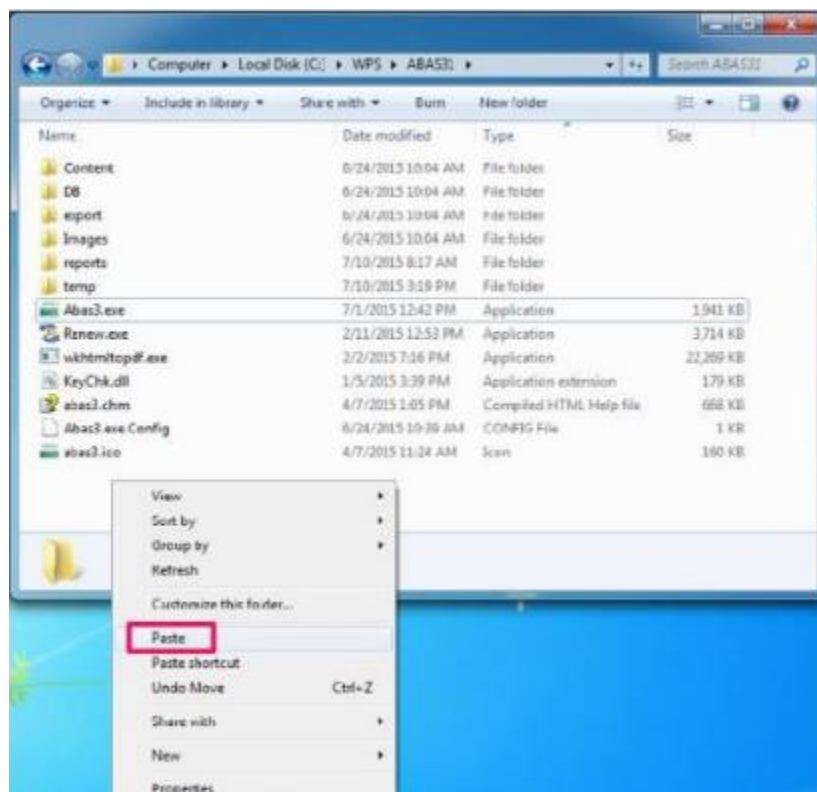

4. Click the download icon for the **ABAS3.exe** file.

5. Once you have downloaded the update file on your computer, go to the location of the file. Downloaded files are commonly saved in your My Downloads folder, by default. Once you have found the downloaded ABAS3.exe file, right-click on it and choose Copy.

6. Open the C:\WPS\ABAS31 folder. Right-click anywhere inside this folder and choose Paste

7. Choose Copy and Replace, when prompted by Windows

8. Proceed to plug in your ABAS-3 USB Key and wait for a solid green light on the tip of it. Continue to open your ABAS-3 program.
9. If you have any trouble, please call WPS Technical Support at 1-800-648-8857 or 424-201-8800 or email us at [support@wpspublish.com](mailto:support@wpspublish.com).
